

DEFENCE SIGNALS DIRECTORATE

MINUTE PAPER

REFERENCE: 8-5-48

SUBJECT:

ADA

AF. Raised with Marsik Steering Committee -
to be picked up as an item at the next meeting
of the Project Group which is met shortly.

Project Marsik - Disposal of CDC 3400 computer system Q/s

Part of the project is the disposal of the above system.
The planned commencement date for disposal by Dept of
Administrative Services is 1 December 1984.

2. Prior to this date SM and BO staff are required to
decommission the equipment.

3. The decommissioning and disposal action is dependant
on the transfer of consec software being completed. SM
indicated a target date of Nov 84.

4. To consider how appropriate the 1 Dec 84 date is for
disposal I would like to know whether the transfer of
consec software will be achieved by that date or early
(if possible) Nov 84.

6 June 84
