~~SECRET KIMBO~~

CONDOR FROM WILLIAMS.

HAVE YOU PUT UP AT [REDACTED] RESONANT AERIALS CUT EXACTLY TO HF-156  
FREQUENCIES USED BY INDONESIANS IN BORNEO QUERY. FREQUENCIES  
ARE OBVIOUSLY FIXED AND RECENT CHANGE-OVER BETWEEN 305/328 BNS  
HAS NOT AFFECTED USAGE (IN FACT ACTUAL SETS WERE HANDED OVER) -  
PRESUMABLY AUDIBILITY OF PLATOON TRANSMISSIONS WOULD BE IMPROVED  
IF [REDACTED] USED AERIALS QUOTE TAILORED UNQUOTE TO JOB.

2. INCIDENTALLY I WELL REMEMBER LIMITATIONS OF SITE AND WILL NOT  
BE SURPRISED IF YOU RESPOND WITH QUOTE COME OFF IT MOS UNQUOTE.  
(YOUR RECENT CRACK ABOUT GETTING SOFT IN OLD AGE MIGHT APPLY  
MY HEAD ).

3. POSTSCRIPT. WAS DISAPPOINTED FEW MINUTES AGO IN READING  
SOME OF [REDACTED] VOICE LOGS (20-24 JULY) TO FIND THAT TIME  
ENTRIES ARE NOT MADE. SUGGEST YOU ASK OPERATORS TO ADHERE  
TO NORMAL LOGGING PRACTICES BECAUSE TIMES OF INTERCEPT (AND  
RELATED ACTIVITY/AUDIBILITY) ARE INDEED IMPORTANT TO ANALYSTS.
