8. IF ENCODED MESSAGES ARE BEING BROADCAST THEN THEY WERE

PROBABLY PLANNED ORIGINALLY ONLY AS A SUBSTITUTE OR SUPPLEMENT TO

DIRECT RADIO COMMUNICATIONS BETWEEN THE RPKAD COMMS CENTRE AT

SAMARINDA AND THE +BEO+ TEAM. SINCE AT LEAST THE 6TH AUGUST THE

RPKAD COMMS ELEMENT AT SAMARINDA HAS BEEN ATTEMPTING TO MAKE

DIRECT CONTACT WITH +THE FRONT LINE+. ON 12TH AUG THE STATION

INFORMED THE RPKAD COMMUNICATIONS CENTRE IN JAVA THAT IT HAD

UP TO THAT TIME FAILED TO MAKE CONTACT AND ON THE SAME DAY, WHILST

ATTEMPTING A FURTHER CONTACT WITH THE +FRONT LINE+, ANNOUNCED

THAT THE UNSUCCESSFUL LISTENING WATCH HAD THEN BEEN MAINTAINED FOR THREE WEEKS (). AS AT 20TH AUGUST THE SAMARINDA STATION WAS STILL TRANSMITTING TO THE FRONT LINE STATION AT LEAST THREE TIMES EACH DAY, AND HAD STILL FAILED TO GAIN ANY RESPONSE FROM THE INTENDED RECIPIENT STATION.

VI. CONCLUSION.

9. TO SUMMARISE THE COMMUNICATIONS ASPECTS OF THE INFILTRATIONS AND DERIVE THEREFROM A REASONABLE IMPLICATION:-

(A) THE +KELABANG+ (+SUMBI+) TEAM PROBABLY HAS NOT HAD AND DOES NOT HAVE ANY RADIO COMMUNICATIONS CAPABILITY AND WILL RELY ON COURIER SERVICE UNTIL AND IF THE COMMUNICATIONS EQUIPMENT REQUESTED IS DELIVERED. THE TEAM COULD POSSIBLY HAVE A TRANSISTOR FOR RECEIPT OF BROADCAST MESSAGES.

(B) THE +BEO+ TEAM IS EQUIPPED WITH TRANSISTORS FOR RECEIPT OF RRI(SAMARINDA) BROADCASTS AND WITH A RADIO TRANSCEIVER FOR RECIPROCAL COMMUNICATIONS WITH ITS COMMUNICATIONS SUPPORT ELEMENT AT SAMARINDA. IT HAS TO DATE BEEN UNSUCCESSFUL IN ANY ATTEMPT TO MAKE CONTACT WITH THE SUPPORT ELEMENT.

(C) THAT FOR AT LEAST AS LONG AS THE RPKAD ELEMENT AT SAMARINDA PERSEVERES WITH ITS ATTEMPTS TO MAKE CONTACT WITH THE +BEO+ TEAM THEN IT IS LOGICAL TO ASSUME THAT THE +BEO+ TEAM IS STILL WITHIN MALAYSIAN TERRITORY.
